**Draft Criteria for Identifying Shoreline Public Access Gaps**

The following draft criteria were used to identify gaps in formal shoreline public access and recreation. Formal public access and recreation sites are those where access is specifically allowed and managed by a public agency. Identifying gaps will help to identify and prioritize public access opportunities that could be established as part of the Shoreline Master Program Public Access Plan.

**Gaps include shoreline areas where there is:**

1. a notable geographic absence in public access opportunities;
2. a notable absence in type of public access opportunities (visual, physical, or type of facility);
3. informal access and use of sites that confirms demand; and/or
4. population concentrated in area or otherwise known demand for access at the site.

**Also considered in identifying public access gaps were existing public access plans:**

- Public Boating and Fishing Access to the Cedar River (<http://dnr.metrokc.gov/wlr/watersheds/cedrLKWA/ceda-r-river-public-access.htm>, October 2006)
- Middle Fork of the Snoqualmie River Valley Phase II – River Corridor Public Use Concept (September 1997)

**Data Sources:**  
Public street ends from King County DNR dataset "Street\_ends" (08/06). Boat launch, dock/pier, and swimming beaches from "WaterAccessMaster\_13Jul06.prj" developed by King County DNR staff, last updated on 11/15/06. Medium-high park/regional trail (Greenprint) data from King County DNR Greenprint project dataset ("Trails\_GP", 4/24/06). Large privately owned timberland from ("4th\_run\_maj\_private.shp", 04/05/06), ownership based on King County Assessor's data 1/26/06. Natural Lands informal access points from King County WLRD ORRP dataset ("NRL\_Lands\_final.shp", 7/6/2006). Parks informal access points from King County DNR dataset ("Park\_access\_smp.shp", 8/06). Public Access gaps from King County DNR ("accessgaps", 11/06). Additional King County standard datasets utilized for trails ("trail", 5/02); camping and picnic sites ("park\_facility", 11/06); parks ("park", 11/06); PBRs parcels ("cut\_pbrs\_tim.smp", 05/19/05).
